Intended 8 faults

Fault No.	Operation	Description
f1	registerClient()	Return id isn't correct, it works based on list size, not *cMax* value
f2		*cMax* remains with no change
f3	makeReservation()	doesn't check *of* link
f4		*(n)* in reference Id is also increases by (+1), it should be pickup + "_" + n
f5	cancelReservation()	delete all reservations for a given client
f6		delete all reservations in database
f7	pickupCar(rsv)	Edge (*pickup*) will not be deleted after applying pickupCar
f8	dropoffCar(rsv)	The *reservation* object will not be removed after applying dropoffCar
